TEACHER EVALUATION SYSTEM

Easy to use, research-based, and linked
to actionable professional development

Research-based teacher evaluation linked to actionable professional development

Evaluate teachers on what matters most

Based on extensive research, our rubric-based evaluation process measures teacher performance on demonstrable behaviors that make a difference for students, including:

- ★ Using a variety of proven instructional strategies
- ★ Knowing their subjects and how to teach them
- ★ Using data to guide instruction
- ★ Building strong, positive relationships with students
- ★ Creating culturally responsive learning environments
- ★ Conveying expectations that all children can learn
- ★ Creating safe and orderly learning environments
- ★ Demonstrating professionalism and collaborating with other teachers

Integrate achievement data for a balanced view of performance

Integrate student achievement data from your statewide assessment systems with evaluation feedback in our system to create a robust picture of performance, one that balances ongoing classroom observations of teachers' abilities with student achievement.

Help your teachers grow as professionals

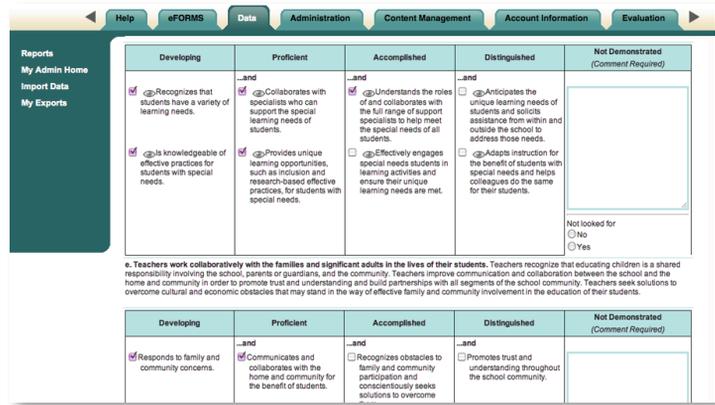

Our system is designed to help schools and districts identify opportunities for improved practice in classrooms and schools. You can easily aggregate data from your reviews into reports that **generate action plans for individuals** as well as **school-wide and district-wide professional development plans**.

TEACHER EVALUATION SYSTEM ONLINE

Ease-of-use for administrators and teachers

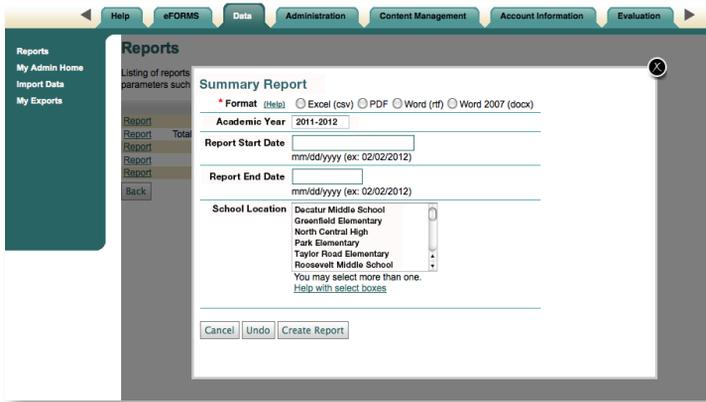

Ensure consistent evaluations with clear, easy-to-understand rubrics
