

Make a *meaningful* difference in education

RESEARCHERS • EVALUATORS • EDUCATORS • LEADERS

Making a difference individually and organizationally

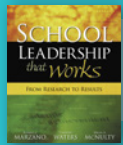

McREL staff have developed some of the most influential, highly regarded research, books, and professional development in education, including:

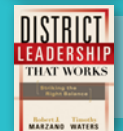

Classroom Instruction That Works

The 12 Touchstones of Good Teaching

School Leadership That Works

District Leadership That Works

Balanced Leadership

Simply Better: Doing What Matters Most to Change the Odds for Student Success

Changing the *odds of success* for students and educators

Our mission is to make a difference in education through research, development, and service. Our work changes the odds of success for students and the educators who serve them.

We conduct research, evaluate programs, analyze data, and study best practices gleaned from schools across the U.S. and around the world. Once we discover something that really works in teaching, leading, and learning, we turn our findings into useful guidance, products, and services for educators and leaders worldwide.

Our regional, mission-driven, nonpartisan nonprofit that was founded in 1966 has become an international, multi-office organization. But our heart and soul have remained true to our mission and we're more passionate than ever about helping educators, leaders, and students thrive.

Competitive salaries and benefits

- Market-competitive salaries
- Substantial insurance plan: health, dental, vision, life, disability, and dependent coverage; flexible spending accounts, and an employee assistance program
- Retirement plan with employer contribution
- Time off for work-life balance (vacation days, personal days, sick leave, paid holidays)

McREL works with:

SCHOOLS • DISTRICTS • COLLEGES • UNIVERSITIES • SERVICE AGENCIES
STATE EDUCATION DEPARTMENTS • FEDERAL PROGRAMS • FOUNDATIONS

A culture of giving

On top of everything else, we give back to our communities with a variety of employee-inspired fundraisers and activities that support great organizations in the places where we live and work.
